

Dear Stellar

Oh freedom, freedom, freedom, yeah freedom [Aretha Franklin]

Dear Madam, dear Sir,

I discovered the Merlot wine from your winery this year and was very satisfied with this finding.

I appreciate any effort in the wine business to comply with environmental policies, especially if it is also a purveyor of social progress as it seems to be in South Africa.

The Merlot that I found in the German retail stores is a good bargain, a pleasant and rounded wine.
Yet it is not overpriced.

Recently I had the opportunity to let my parents taste this 'appellation' - they fought Apartheid during the 80's here in Germany as they were involved in civil rights movements. I think it was a special and rewarding moment...

With best regards,
